Tylosin Phosphate

Type A Medicated Article

CAUTION: Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian.

For use in Swine and Beef Cattle Feeds Only

Do Not Feed Undiluted

Equivalent to 40 g Tylosin per Pound

Swine:

For reduction in severity of effects of atrophic rhinitis.

For control of swine dysentery associated with Brachyspira hyodysenteriae.

For the treatment and control of swine dysentery associated with Brachyspira hyodysenteriae immediately after medicating with Tylan Soluble (tylosin) drinking water.

For control of porcine proliferative enteropathies (PPE, ileitis) associated with Lawsonia intracellularis.

For control of porcine proliferative enteropathies (PPE, ileitis) immediately after medicating with Tylan Soluble (tylosin) in drinking water.

Beef Cattle:

For reduction of incidence of liver abscesses associated with Fusobacterium necrophorum and Arcanobacterium pyogenes.

Restricted Drug (California), Use only as Directed.

NADA # 12-491, Approved by FDA

Directions for Use

Read All Directions Carefully Before Mixing and Feeding

Active Drug Ingredient—Tylosin

(as tylosin phosphate) . . . 40 g per lb

Ingredients: Roughage products, calcium carbonate and mineral oil.

Caution: To ensure adequate mixing, an intermediate blending step should be used prior to manufacturing a complete feed. Do not use in any liquid feed containing sodium metabisulfite or in any finished feed (supplement, concentrate or complete feed) containing in excess of 2% bentonite.

Warning: Tylan 40 may be irritating to unprotected skin and eyes. When mixing and handling Tylan 40 use protective clothing, impervious gloves and a dust respirator. In case of accidental eye exposure, flush eyes with plenty of water. Exposed skin should be washed with plenty of soap and water. Remove and wash contaminated clothing. Seek medical attention if irritation becomes severe or persists. The material safety data sheet (MSDS) contains more detailed occupational safety information. To report adverse effects, access medical information, or obtain additional product information, call 1-800-428-4441.

For reduction in severity of effects of atrophic rhinitis. Feed 100 g of tylosin per ton (2.5 pounds Tylan 40 per ton) of complete feed. Feed continuously as the sole ration.

For control of swine dysentery. Feed 100 g of tylosin per ton (2.5 pounds Tylan 40 per ton) of complete feed for at least three weeks. Follow with 40 g tylosin per ton (1 pound Tylan 40 per ton) of complete feed until pigs reach market weight.

For the treatment and control of swine dysentery. Feed 40 to 100 grams of tylosin (1.0 to 2.5 pounds of Tylan 40) per ton of complete feed for 2 to 6 weeks immediately after medicating with 250 mg tylosin (as Tylan Soluble) per gallon in drinking water for 3 to 10 days.

For control of porcine proliferative enteropathies (PPE, ileitis). Feed 100 g of tylosin per ton (2.5 pounds Tylan 40 per ton) of complete feed for 21 days. Alternatively, feed 100 g of tylosin per ton (2.5 pounds Tylan 40 per ton) of complete feed for at least three weeks, followed by 40 g tylosin per ton of complete feed until pigs reach market weight. Alternatively, feed 40 to 100 grams of tylosin (1.0 to 2.5 pounds of Tylan 40) per ton of complete feed for 2 to 6 weeks immediately after medicating with 250 mg tylosin (as Tylan Soluble) per gallon in drinking water for 3 to 10 days.

NOT FOR HUMAN USE

Store at Room Temperature, 25°C (77°F). Avoid moisture. Not to be used after the date printed on the bottom of the bag.
